

Genomics in Business 2005

Date : 2, 3 & 4 October 2005
Location : Golden Tulip Parkhotel Doorwerth
Kabeljauwallee 35
6865 BL DOORWERTH
The Netherlands

Conference objective

Genomics in Business 2005 is the second edition of an unique conference on genomics. Primary objective is to generate economic value from genomics applications in the Agro-Food Industry. Whereas many events concentrate on potential future achievements, interesting long-term scientific benefits etc., Genomics in Business 2005 is all about the application of genomics in *today's* Agro-Food Industry. Applying genomics in the Agro-Food sector opens up whole new ways to conduct industrial research, development and production, resulting in turn in new ways to do business.

Topics

New Technologies

Food Quality

Food Safety

Plant Breeding

Animal Breeding

Applied Bioinformatics

Who will attend

entrepreneurial scientists - industry researchers - research managers - financial managers and investors - managers from start-up companies - managers from established industries - program directors

Number of participants (expected) : 150 – 200

Committed Sponsors

Netherlands Genomics Initiative

Rabobank

Scientific Committee

Dr. Mark J.J. van Haaren, MBA (chairman)	-	Keygene / Manager Business Development
Dr. Johan Peleman	-	Keygene / Director Applied Research
Prof.dr. Willem J. Stiekema	-	Centre for BioSystems Genomics / Director
Prof.dr. Arjen J. van Tunen	-	Keygene / Chief Executive Officer

Organizing Committee

Prof.dr. Hans Dons (chairman)	-	BioSeeds / Managing Director
Dr. Mark J.J. van Haaren, MBA	-	Keygene / Manager Business Development
Ellen P.B. de Waal	-	Publimarket / Managing Director
Office Managers	-	Keygene
Project Office	-	Publimarket
